Key Achievements

- Paplesh has proactively handled all the important modules of the project including Designing, Development, Testing, Estimation, UAT and Production deployments, and Client meetings for slightly more than a year (2019-2020) post two of the critical senior developers moved away from the project team.
- Got rank-1 in programming assessment in cognizant academy.

Current Experience

Industry: IT Services **Service Area:** Enterprise Applications

Service Line: Oracle

Consultant; 1 Year (Jul-2020 to Jun-2020)

Deloitte CON India Pvt Ltd, Gurugram, India

DFTE (DEX) – “Data Extraction tool” This tool was developed as a part of several DFTEs.

Role: Being a core developer of the Data Extraction tool, Paplesh is responsible for Enhancement and Bug fixing in DEX. So far, 3 clients have already adopted it as their Data extraction tool. Based upon client’s need Paplesh is responsible to enhance, develop and bug fixing.

Key Responsibilities:

- Development and enhancement of data extraction tool using angular and node.
- Responsible to gather user requirements and work on them and support the testing and QA and Prod migrations.
- Analyzing and development BI reports that were executed to fetch transactional data for various Oracle modules and help DTEST to create test data. Data extracted using DEX and DTEST were instrumental in supporting and efficiently testing user stories in a given test cycle, saving 10% manhours of the effort.

Key work items:

- Changed the Summary to sort the details and to display Module, Submission Date in appropriate format.
- Modified DEX interface to bypass the login screen and directly land user to the Submit Extracts page.
- Modified to allow user to choose a project in DEX, in case a user has multiple project’s access.

Technical Environment: Oracle cloud fusion, Angular 10 & Node, Web browser.

Development Tools/Languages:

Tools/Technology	Proficiency
Angular 10	Project Experience
Node Js	Project Experience
Typescript	Project Experience
Oracle Cloud Fusion SCM	Project Experience
BI Reports	Project Experience
APEX	Project Experience
Postman	Project Experience
UIPath	Project Experience

Middleware/Databases: Oracle Rel. 18C, Proficiency — Project Experience

General Tools: Microsoft Office, proficiency — Project Experience

Previous Experience

Industry: IT Services **Service Area:** Enterprise Applications

Service Line: Oracle

Senior Developer; 4 Years (May-2016 to APR-2020)

Cognizant Technology Solution, Kolkata, India

Client was global provider of financial services technology. The company's clients include banks, thrifts, credit unions, securities broker dealers, leasing and finance companies, and retailers

Role: Involved in new development, maintenance, and support-related activities. Developed various custom Reports, Forms & Interfaces in oracle e-business suite application.

Key Responsibilities:

- Enhanced various existing process based on the new business requirements. E.g. inbound interfaces (Entering sales order from different application to oracle application), outbound interfaces (Populating fulfillment details back to the source system).
- Developed new RDF, RTF & XMLP reports (Finance, Item, Order, Customer related detailed reports), Forms, Form Personalization & Customization, and worked on business solutions to enhance the existing process.
